PROFESSIONAL EXPERIENCE

Consultant

Capgemini – Mumbai, India
Client: Oil & Gas Domain
Jan 2025 – Present

- Working as a backend developer using **Java and Spring Boot** for an Oil & Gas client.
- Developed multiple **RESTful APIs** as part of a **microservices-based architecture**.
- Implemented business logic, validations, exception handling, and logging across services.
- Used **PostgreSQL** for database operations and data persistence.
- Wrote **unit test cases using JUnit** to ensure code quality and reliability.
- Used **GitHub** for source control, pull requests, and code reviews.

- Set up and maintained **CI/CD pipelines using GitHub Actions** for automated build and deployment.
 - Followed **Agile Scrum practices**, participating in sprint planning, stand-ups, and reviews.
-

System Engineer

Tata Consultancy Services (TCS) – Pune, India

Client: Ikano Bank

Apr 2021 – Jan 2025

- Developed and maintained backend components using **Java, Spring, and Spring Boot**.
 - Built and enhanced **REST APIs** for banking applications.
 - Performed **bug fixes, incident resolution, and code refactoring** to improve performance and stability.
 - Wrote **unit and integration test cases** to ensure quality deliverables.
 - Worked closely with DevOps teams during deployments and release cycles.
 - Followed **Agile (Scrum / SAFe)** methodology for project execution.
-

Consultant – ServiceNow

Infocenter – Pune, India

Dec 2019 – Jul 2020

- Worked on **ServiceNow administration and scripting**.
 - Developed and customized **Business Rules, Client Scripts, UI Policies, UI Actions, and Glide Ajax**.
 - Hands-on experience with **JavaScript, JSON**, and ServiceNow workflows.
-

CERTIFICATIONS

- **AWS Certified Cloud Practitioner**
-
