SIDDHESH PARKAR

JAVA BACKEND DEVELOPER | SPRING BOOT | MICROSERVICES | REST APIs

Mumbai, India | +91 8668737729 / 9420187246 | sidparkar456@gmail.com | linkedin.com/in/siddheshparkar

PROFESSIONAL SUMMARY

Java Backend Developer with **6+ years** of professional IT experience**,** including **5+ years** of experience building, enhancing, and supporting enterprise backend applications using Java, Spring Boot, microservices, and REST APIs. Experience across **banking (Ikano Bank)** and **oil & gas (Baker Hughes)** domains. Strong hands-on experience in backend business logic, API development, validation, exception handling, database integration, Kafka-based messaging, debugging, production support, CI/CD, and AWS-based environments.

TECHNICAL SKILLS

Programming: Java 8, JavaScript, Python

Backend / Frameworks: Spring Boot, Spring Framework, Spring MVC, Microservices, REST APIs, Spring Data JPA, Hibernate

Messaging / Integration: Apache Kafka, REST-based service communication, JSON

Databases: PostgreSQL, MySQL, Oracle, SQL

Cloud / DevOps: AWS, GitHub Actions, Jenkins, Docker, Maven, Gradle, SonarQube

Testing / Tools: JUnit, Mockito, Git, GitHub, Postman, IntelliJ IDEA, JIRA, Elasticsearch

Delivery: Agile, Scrum, SAFe, Code Reviews, Production Support

PROFESSIONAL EXPERIENCE

Consultant | Capgemini - Mumbai, India — Jan 2025 - Present

Client: Baker Hughes | Domain: Oil & Gas

- Develop backend services and RESTful APIs using Java and Spring Boot within a microservices-based architecture for Baker Hughes.
- Implement business logic, request validations, exception handling, logging, and backend processing for enterprise application features.
- Build and enhance API endpoints integrated with PostgreSQL for application data persistence, retrieval, and update operations.
- Took ownership of application modules by onboarding new team members, facilitating knowledge-sharing sessions, coordinating with cross-functional teams, and supporting end-to-end project delivery.
- Use GitHub for source control, pull requests, and code collaboration, with GitHub Actions supporting automated build and deployment workflows.

System Engineer | Tata Consultancy Services (TCS) - Pune, India — Apr 2021 - Jan 2025

Client: Ikano Bank | Domain: Banking / Financial Services

- Developed and maintained Java/Spring Boot backend microservices and REST APIs for Ikano Bank banking applications.
- Implemented and enhanced business features across account, agreement/contract, customer relationship, and lending-related backend workflows.
- Worked with event-driven integrations using Apache Kafka, including producer/consumer flows and service-to-service message processing.

System Engineer | Tata Consultancy Services (TCS) - Pune, India **Apr 2021 - Jan 2025**

Client: Ikano Bank | Domain: Banking / Financial Services | Continued

- Created and optimized database operations using Hibernate/JPA and SQL, and supported data validation and transactional application flows.
- Handled production defects and incidents through root-cause analysis, debugging, code fixes, refactoring, and release support.
- Provided technical mentoring and onboarding support to new team members through KT sessions, development guidance, code reviews, and assistance in understanding business processes and application architecture.
- Collaborated with DevOps teams for CI/CD deployments and application releases, with exposure to AWS-based environments.
- Worked in Agile Scrum/SAFe delivery teams, contributing to requirements analysis, implementation, testing, sprint demos, and production support.

Consultant - ServiceNow | Infocenter - Pune, India **Dec 2019 - Jul 2020**

Domain: ServiceNow Platform

- Worked on ServiceNow administration, scripting, and workflow customization.
- Developed and customized Business Rules, Client Scripts, UI Policies, UI Actions, and GlideAjax using JavaScript and JSON.

BACKEND ENGINEERING STRENGTHS

API Development: Spring Boot REST APIs, request/response handling, validations, exception handling, logging, and database-backed business operations.

Microservices & Messaging: Service-oriented backend development with synchronous REST communication and Kafka-based asynchronous producer/consumer flows.

Database & Persistence: PostgreSQL, MySQL, Oracle, SQL, Hibernate/JPA, data validation, transactional flows, and query-driven backend operations.

Production & Delivery: Debugging, defect resolution, code refactoring, release support, CI/CD collaboration, Git-based workflows, and AWS environment exposure.

CERTIFICATION

AWS Certified Cloud Practitioner

EDUCATION

B.E. in Information Technology - University of Mumbai | 2016 - 2020 | CGPA: 6.99

H.S.C. - S.M. Junior College of Science | 2014 - 2016 | 73.85%

S.S.C. - New English School Achara | 2013 - 2014 | 95.4%
